Tytuł po polsku: "SimLE Stardust - platforma stratosferyczna do badań przestworzy"

Tytuł po angielsku: "SimLE Stardust - stratospheric platform to reach the skies"

#### Abstrakt

Stardust is a student project based at SimLE Science Club of Gdańsk University of Technology. The main objective of the project is the creation of a replicable stratospheric platform which can facilitate a variety of scientific payloads. By creating a standardized hardware and operational procedures the hope of the project is to allow other experiments to easily reach the skies.
