

Marine Chemistry and Biochemistry Department –seminars 2024
Wednesday, 9 a.m. (conference room)

date	speaker	title
17.01.2024	Karol Kuliński	A quick tutorial on how to give a bad presentation
24.01.2024	Anna Pouch	Pharmaceutical residues and caffeine in the Arctic seawater
31.01.2024	Jacek Bełdowski	Baltic Munition Remediation Roadmap
07.02.2024	-	-
14.02.2024	Fernando Aguado Gonzalo	High-resolution seasonal oceanographical and chemical data from the Arctic coastal waters influenced by the kelp forest
21.02.2024	Pratha Sivasamy	Rate of Sedimentation in the Eastern Arabian Sea- using Lead-210 studies
28.02.2024	Marta Ceglowska	<i>Prymnesium parvum</i> the Odra River culprit.
	Agnieszka Walczak	Impact of UV-A and UV-B radiation on the growth and toxin production of selected Baltic cyanobacteria.
06.03.2024	Klaudia Kosek	Assessment of the surface water pollution in Spitsbergen and its impact on the occurrence of selected groups of microorganisms
13.03.2024	Grzegorz Siedlewicz	Methylmercury concentration in beach-wrack from selected regions of Pucka Bay coast
20.03.2024	Agnieszka Jędruch	
27.03.2024	Blanka Pajda	Distribution of SPM and heavy metals in the vicinity of the Hansbreen Glacier (Hansbukta Bay, Hornsund)
03.04.2024	-	
10.04.2024	Magdalena Diak	OCEAN-FIX project: Investigation of OCEANic nitrogen FIXation in the water column in high and mid latitudes regions and its contribution to global estimation of nitrogen fixation.
17.04.2024	Katarzyna Koziorowska-Makuch	Spatial variability of dissolved organic carbon concentration in the Fram Strait Area and Spitsbergen fjords.
24.04.2024	Alexandra Loginova	Join seminar with Marine Physics Department - tbc
08.05.2024	Dominik Narwojsz	Total mercury in water samples from Spitsbergen fjords
	Marta Ceglowska	<i>Prymnesium parvum</i> the Odra River culprit.
15.05.2024	Agata Zaborska	Concentrations of selected heavy metals in snow and glacier ice samples
22.05.2024	Ewa Korejwo	Mercury concentrations in benthic organisms from polar regions
	Agnieszka Jędruch	Mercury dynamics at the base of the pelagic food web of the southern Baltic Sea
29.05.2024	Reza Saghravani	The Impact of Submarine Groundwater Discharge on Hornsund Sediments
	Beata Szymczycha	Distribution of organic carbon in West Spitsbergen fjords
05.06.2024	Anna Maciejewska	Summary of Ideal results from 2020-2022
	Magdalena Diak	OCEAN-FIX project: Investigation of OCEANic nitrogen FIXation in the water column in high and mid latitudes regions and its contribution to global estimation of

		nitrogen fixation.
12.06.2024	Dominik Krzysiński, Artur Palacz	Ocean Carbon Observing and Modelling in the Arctic and Beyond: Results and Perspectives from Past and New EU Projects.
19.06.2024	Lilianna Sharma	Influence of mixtures of imidazolium ionic liquids and organic micropollutants on photoautotrophic microorganisms
	Ksenia Pazdro	Pharmaceutical residues in the Baltic Sea Region-current knowledge
26.06.2024	Aleksandra Winogradow, Piotr Prusiński	Nutrients and pore water alkalinity measurements
